## The Art Exhibit and Public Examination

The Art Exhibit and Public Examination, held in the Didsbury school on Thursday last, was a decided success. The seven rooms, at any time attractive, were gayly decorated and presented a fine appearance, and the parents and friends of the pupils, both from town and country, and who thronged the building, were loud in their praises of the good work which is being done by the staff.

Inspector Aylesworth of Olds, and Mr. McNally, chief inspector of schools for the Province, arrived early in the afternoon. It was much regretted that the Hon. Geo. P. Smith, Minister of Education, who was expected also, was unable to be present, but Mr. Aylesworth and Mr. McNally, in passing from room to room, were thus able to judge of the character of the work being done in both the High and Public School departments.

The little tots, under the direction of Miss Sexsmith, acquitted themselves admirably, as indeed all the others, and the visitors, guided by the timetables in the halls, were able to see in which room his particular taste would be most pleasingly gratified. Spelling matches, reading, arithmetic tests, dramatization, history speeches and other speeches, vied with one another for the highest point of excellence.

An exhibition of fire drill was given in the afternoon, and the building was emptied of its 250 pupils in the short space of 45 seconds, showing again the efficiency of the staff in a matter so vital.

While the teachers of the country schools were unable to be present, the excellent work sent in from the various schools was sufficient evidence that the teachers of this district are doing their part equally well in advancing the work of education. Those schools whose exhibits were displayed were Rosebud, Davenport, Zella, Springside, Westcott, Elkton, Siebertville, and their display of work was very creditable indeed.

The walls of the basement were lined throughout with maps and drawings in pencil, pastel, water colors, pen and ink, and wax crayons, and the work reflected great credit on the teachers.

There was an excellent display of plasticine and paper cuttings by pupil in rooms 1, 2 and 3, and of woodwork by the boys of rooms 4 and 5. A revolving bookcase made at school by Earl Ruby, and a carpenter's tool-chest by Tom Reed, are deserving of special mention, while the windmill made by Irwin Bartz was at once a marvel and a work of genius. A miniature set of bob-sleighs with hayrack, the work of Lionel Timmins was also much admired. Many other articles, too numerous to mention, occupied prominent places in the basement. This work is well worthy of the highest commendation, as the work is for the most part done by the boys without the aid of a supervisor, as in Calgary and other city schools.

Nor was there a lack of manual training work in the girls' department. Many and varied were the articles displayed. A generous loaf of bread made by Adella Hunsperger, a plate of much sought-after cookies by Ruth Brubacher, and several lunch-boxes was proof positive that Art has indeed many phases, for along with these were seen fancy work of all description. Altogether the exhibit was a splendid success.

The programme of work given by the High School grades was a very interesting one, and on account of the effort involved on the part of the individual pupils who contributed, deserves special mention.

Under the direction of Miss Riddell, before recess, commercial geography,

botany and geometry reviews were presented by Grade 10. Speeches on the commercial interests of Canada, the United States and South America were made by Vera Hehn, Leona Weber, Martha Klitzke, Minerva Kent and Bruce Paton. Geometry was demonstrated at the blackboard by Mamie Orde and Robert Eulank.

During the same period Miss Lantz conducted with Grade Nine a review of the Elizabethan period. Speeches were made by Ernest Clarke, Myra Herber and Aylmer Liesemer. Grade Eleven then reviewed "Julius Caesar." Edward Clarke gave a speech on the historic setting of the flag; papers on the main characters of the piece were read by Ruth Moyle, Annie Whiteside, Alastair Watson and Hessel van Wyk; and the funeral oration was delivered with considerable dramatic effect by Alastair Watson.

The period concluded with French conversation in Grade Nine, including a miniature French dialogue by Ella Sick and Harry Wait.

After recess certain principles of Physical Culture were reviewed by Grade Nine, demonstrations being given by Ethel Klineck, Florence Morrison, Myra Herber and Aylmer Liesemer. This was followed by an interesting lesson in algebra and arithmetic by Grades Eleven and Nine.

In the Grade Ten room a Canadian history review was in progress at this time. Speeches were given by Minerva Kent, Leona Weber and Bruce Paton. This was followed by a picture study and by a review of the "Merchant of Venice," concluding with a dramatization of the trial scene from the play. The caste of characters were: Portia, Vera Sexsmith; Shylock, Mamie Orde; Bassanio, Bruce Paton; Antonio, Robert Eulank; Gratiano, Bessie Clemens.

The evening's programme was much enjoyed by all those who were so fortunate as to be present. Mr. Parker Reed was in the chair. After the singing of "O Canada," Mr. McNally, the speaker of the evening delivered a most interesting address entitled "A Programme of Progress." Mr. Aylesworth emphasized particularly the high grade of work being done in both the Public and High Schools. Mr. Freeman explained the laws of the Province with respect to the attendance at school, the duties of board, parents and teachers. The Rev. Donald McGregor, in a most happy speech moved a vote of thanks to Mr. McNally and Mr. Aylesworth.

Other enjoyable items were a piano duet by Margaret and Vera Sexsmith; a part song by a number of the Grade Eight and High School girls, and a piano solo by Arnold Liesemer. The singing of the National Anthem concluded the programme—and all remained until it had been sung.

The Misses McNaughton, Miss Pipes, Miss Klineck and Mrs. Hardy, teachers of rural schools in the vicinity of Didsbury, were present in the evening.

## A Constipation Cure Sold on Guarantee

Dr. Hamilton Says His Remedy  
Never Fails to Cure Quickly

There is a marvellous remedy. There are others, but not one possesses the peculiar merit so prominent in mine.

With my remedy I guarantee to cure constipation.

I also guarantee to prevent it.

My preparation, which is in pill form gives tone and regularity to the bowels that quickly rids the system of effete matter, accumulations of bile and other injurious results of costiveness.

I call my pills Dr. Hamilton's. I am sure they are safe because composed of such health-giving vegetable extracts as Mandrake, Butter-nut, Hyoscyamus and Dandelion.

My pills are not harsh or drastic. They cause no pain, no distress; they are prescribed by physicians because of their mildness and certainty to cure.

For women and children I know of no better medicine for keeping the system healthy. For men they are perfect.

I have proved their merit in biliousness, constipation and headache, and can strongly recommend them in these troubles.

My personal guarantee stands behind every box of Dr. Hamilton's Pills; and this means much to you in selecting your remedy.

Every dealer sells Dr. Hamilton's Pills of Mandrake and Butter-nut. 25c per box.

(Continued)

"Well," he remarked, "you have had a strange career. Leading a gang of swindlers must have been a change from helping a philanthropist."

Daly smiled rather grimly. "For a long time I served a strange man. Philanthropy loses its charm when it becomes a business and results are demanded from all the money given. Then my pay was arranged on the surmise that to be engaged in such an occupation was reward enough, and something must be allowed for the natural reaction. As a matter of fact, I'm not surprised that Featherstone robbed my employer. He deserved it; but I think we can let that go."

Foster nodded and was silent. Perhaps it was because the excitement of the chase was over, but he felt dull and tired. He had no sympathy with Daly; the fellow was a rogue, but he had pluck and charm. In a sense, it was unnatural that they should be talking quietly and almost confidentially, but he did not feel the anger he had expected and his antagonist was calm. Still, he was none the less dangerous and would use any advantage that he could gain.

"Now you had better tell me exactly what you want," Daly resumed. "I want you to leave my partner alone."

"Would you be satisfied with my promise?"

"No," said Foster; "not without some guarantee."

"Then we must make a bargain. I'm able, if I think it worth while, to give you what you ask. None of my confederates know anything about Featherstone's history; this ought to be obvious if you claim that Walters meant to kill him. Very well; I can, so to speak, buy an unfortunate error of his so that it will never trouble him again. That's much. What have you to offer?"

Foster was now confronted with the difficulty he dreaded most, but he tried to be firm.

"I don't know that I need make an offer. I think I'm able to dictate terms."

"Are you?" Daly asked with an ironical smile.

"Well, suppose you had me arrested? My defence would be to discredit your partner's evidence. My lawyer would prove that Featherstone was my enemy and had a motive for revenge, by admitting that I had demanded money from him and would tell the court on what grounds. You must see the danger in which you'd put your friend."

Foster saw it; indeed, he had seen it since he began the chase. He must silence Daly, but the fellow was a criminal and he could not bring himself to promise him immunity from the punishment he deserved. Yet nothing less would satisfy the man. It looked as if he must deny his duty as a citizen if he meant to save his friend. This was the problem, and there was apparently no solution. Daly, who understood it, watched him with dry amusement.

"Well," resumed the latter, "I'll make a proposition. To begin with we'll exchange documents; the checks against the papers that compromise Featherstone."

"Which you haven't brought?"

"Just so," said Daly. "If we both engage to make no use of the documents we hold, they can be exchanged at some convenient time."

"That means I must put the police off your track and meet you again."

"Exactly; you have no choice. Besides, Featherstone must promise to keep back anything he knows, and you to say nothing about your meeting with Graham."

"I can't agree," Foster replied.

"Then I'm afraid your partner must take the consequences."

Foster pondered. Daly, who looked determined, knew his friendship for Lawrence and meant to trade on it, but Foster must try to persuade him that he counted too much on this. The fellow played a clever game, but it was nearly finished and Foster thought he still held a trump.

"We had better ascertain to whom the consequences would be worse," he said. "Featherstone risks a stained name, his relations' distress, and the loss of friends. We'll admit it, but these things can be lived down. You risk being tried for murder and certainly for a serious robbery. There's evidence enough to convict you of a share in the latter."

"That is so," Daly agreed with unbroken calm. "I'm surprised you don't see that it strengthens my demand. It's obvious that you must help me to avoid the trial, or leave me to defend myself by doing as much damage as possible. There's no other way."

Foster thought there was, so to speak, a middle way between the two, but it was hateful to indicate, and while he hesitated the car lurched as the train ran out upon a bridge. The door swung open and Daly's face got suddenly hard. A passenger from another part of the train had entered the car and was looking into the smoking compartment. It was the man Foster had seen at the hotel. Next moment Daly was on his feet and springing across the narrow floor turned to Foster with a pistol in his hand.

"Halt you!" he said hoarsely. "You fixed this. I thought you were straight!"

Foster understood the situation. The man in the next car was Hulton's detective or a police official who had known that Daly was on the train, and feeling sure of him, had resolved to watch them both. He had probably a companion, and Daly knew the game was up. The latter's voice had warned Foster that he was desperate. Escape was impossible; he meant to fight, and suspecting Foster of treachery, would shoot him first. This flashed upon Foster in a second, and as Daly, still facing him, opened the vestibule door, he risked a shot and sprang forward.

He heard the pistol explode, and his face felt scorched, but he struck savagely, and something rattled upon the floor. The pistol had dropped and he was somewhat surprised to feel himself unhurt as he grappled with Daly. They reeled through the door and fell against the rails of the platform. Then he got a heavy blow and his grasp slackened. Somebody ran through the smoking compartment, and while he tried to collect his senses Daly stepped back to the gap in the rails. Foster was dizzy, but he saw the man's dark figure against the moonlight. There was a glimmer of snow in the gloom beneath, and a confused din; the roar of wheels and a rattle from the bridge. Then Pete sprang across the platform, passing in front of Foster, and when the latter saw the gap again Daly had gone.

Pete leaned against the back of the car, breathing hard and holding a piece of torn silk.

"I was about a second over long," he gasped. "He just stepped back and left this in my hand."

Foster, crossing the platform shakily, grasped the rail and looked down. There were rocks and small trees immediately beneath him, but further back a level white belt indicated a frozen river covered by thin snow. In the middle of this was a dark ribbon of water where the stream had kept an open channel through the ice. The bridge was one of the long, wooden trestles, hung across rivers and narrow valleys, that are now being replaced by embankments and iron structures. Since the frame, as usual, was open and just wide enough to carry the metals, there was nothing to save anybody who fell off the cars from a plunge to the bottom. Foster thought Daly knew this when he stepped off the platform. Looking back along the curve of the bridge, he imagined that the thing had happened when they were crossing the unfrozen part of the stream. He shivered and then glanced round as a man who had followed Pete closely took the object the latter held.

"His necktie," he remarked. "If it had been stronger we'd have had him in handcuffs now."

"Well," said Pete dryly, "it's no

certain I wouldn't ha' gone over the brig wi' him."

There was a hoarseness in their voices that hinted at strain, but the man, who told Foster not to leave the car, hurried away, and soon afterwards the train slackened speed. Then he came back with another man, and telling Foster and Pete to follow him, got down upon the line. Curious passengers were alighting and asking questions, but the leader did not object when several followed the party. They had to walk some distance, and when they reached the end of the trestle it was difficult to get down the rocky bank.

(To Be Continued)

## Alcoholic Saturation

Long Drinking of Mild Intoxicants Will Saturate a Man

This condition is not brought about in a vast majority of cases by the use of whiskey. "Saturation" is generally a matter of time. Drinkers of whiskey, who drink freely during short periods, are frequently found not to be saturated. Experts are of the opinion that long drinking of mild intoxicants will saturate a man though he does not consume a large quantity of alcohol at any one time.

This feature of the problem seems to have escaped the attention of advocates of the use of light wine and beer. It ought to be considered carefully by those men at Ottawa, the provincial capitals and elsewhere, who urge that wine and beer be not included in a prohibitory law. Many writers in the newspapers, while pretending to stand for temperance, argue in favor of the milder drinks.

One from southern California, where the light wine theory is held so insistently, takes issue with the idea that light wines are harmless, and expresses himself as follows: "Surely you must have observed what alcohol does to the moral and ethical nature of man; how it kills out all decent principle and decent thought. If you haven't so observed, live critically in a booze community like Napa or Sonoma county, in California, where each generation shows the cumulative effect of alcohol in the matter of human degeneration."

Where mild intoxicants abound, saturation is easy. Used freely its effects cannot be hidden for many years. In some families a single generation will reveal these. In every light wine community these effects will be observed. France and Italy have been blighted and cursed by them. And so it is with beer in Germany. German scientists of high repute do not deny this. The German character has been affected by beer. The atrocities of the great war have been attributed in large measure to alcoholic saturation through beer drinking.

Alcohol is the poison that causes drunkenness and the lightest wines and beers contain enough alcohol to make them dangerous.—J. H. Hazlewood, Department of Social Service.

## Will Give Huns

Time to Decide

Stride Toward Early Peace Has Been Taken

New York. — The Associated Press issued the following summary of the international situation:

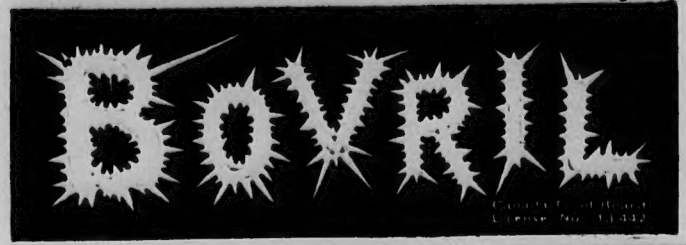

A sharp forward stride toward an early peace has been taken. The council of four in Paris has formally invited Germany to send delegates to Versailles April 25, there to hear the verdict of the entente allies and associated powers, and the sentence they have imposed upon her for having set the world aflame.

The general opinion in Paris seems to be that Germany may endeavor to haggle over the terms and try to secure a diminution in their severity, but that within a relatively short time the delegates will bow to the inevitable and sign the compact. Advances from London are to the effect that the terms of the peace treaty will not be made public until they have been delivered to Germany.

## Lumbermen are Busy

Winnipeg, Man. — Anticipating a heavy demand for sawn lumber, the Finger Lumber company of The Pas, will keep the lumber camps on the Carrot river going throughout the summer months, and the big mill at The Pas will run night and day shifts as long as there are logs to saw.

After many years of work a railroad tunnel under the Pyrenees, between Eastern Spain and France, nearly twenty miles long, has been completed.

## The Practical Economy Of Good Paint

Good paint is never an expense, but a saving. By its use you save your buildings from a steady deterioration in value. The use of cheap materials is a waste of money—a waste of time.

## Shorthorns On the Range

Western Stock Industry Needs Bigger Cattle to Insure More Beef

Mr. A. E. Cross, Calgary, Alta., who carries on an extensive ranching business in Alberta, makes the following statement:

"I could not carry on a cattle business without Shorthorns. Not saying anything derogatory of other breeds, the Shorthorn suits our purpose, and we are running a herd on the open range. They make us 200 pounds more beef than would be possible with other cattle." He also states that what the western cattle industry needs is bigger cattle, which insures more beef to the animal, there being no difference between fixed charges on a 1000-lb. steer and a 1200-lb. steer.

Mr. Cross uses both Shorthorn and Hereford blood, claiming that he gets the best results from cattle which carry about two-thirds Shorthorn and one-third Hereford blood.

B. J. Erwin, Douglas, Wyo., marketed his two year old range-bred

steers weighing 1041 lbs., practically the same weight as the average three year olds from the same range; and the steers of the Fiddleback outfit by Shorthorn bulls weighed 1230 lbs. at Omaha, about 200 lbs. more than the average steers not carrying Shorthorn blood.

Wherever the Shorthorn goes we can trace its influence for good. Big, growthy, sappy steers are characteristic results from using Shorthorn bulls on the range, as elsewhere.

## Will Erect Bridges

Regina, Sask. — The provincial department of highways has announced that part of its construction program for the year will be to erect five steel bridges near Canora, Maple Creek, Rouleau and Vanguard.

## Forests Bring Large Revenue

Vancouver, B.C. — The value of the products of the provincial forests for 1918 aggregated \$54,162,523; in 1917, \$48,300,469; in 1916, \$35,528,000; in 1915, \$29,150,000.

## For Colds, Catarrh or Influenza.

Do you feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong! Now's the time.

An old, reliable blood-maker and herbal tonic made from wild roots and barks, is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or

liquid form. It will build up your body, cure your cold, and protect you from disease germs which lurk everywhere. One of the active ingredients of this temperance alternative and tonic is wild cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root—all skillfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimilation. These herbal extracts in the "Discovery" aid in blood-making, and are best for scrofula. By improving the blood they aid in throwing off an attack of influenza and act as oil on machinery.

Catarrh should be treated, first as a blood disease, with this alternative; then, in addition, the nose should be washed daily with Dr. Sage's Catarrh Remedy which can be had at drug stores.

Central Butte, Sask. — "I have used the 'Golden Medical Discovery' for a number of years and am pleased to recommend it as a blood purifier. I know it has no equal. I think my boy would not be alive to-day had it not been for the 'Discovery.' I also keep it on hand for coughs as it differs so from other medicines, instead of upsetting the stomach as cough syrups do, it is good for the stomach."—Mrs. Percy Wood.

Sarnia, Ont. — "Had indigestion so badly I was always in misery. I had liver trouble as well, and the two just put me 'down and out' for about five years. I had many good doctors but got no relief. I took the 'Golden Medical Discovery' and before I had taken two bottles I was much improved, and in less than six months I was well. I could eat anything."—Mrs. Annie Hanson, 226 Durand St.

## Rumor Is Started to Injure W.S. Campaign

Frank Pegler of Calgary, secretary of the National War Savings Committee of Alberta, discussing the baseless rumor that the National War Savings movement would be discontinued, stated emphatically that it was no friend of Canada who started the canard.

"Had such rumor been disseminated during the war, I would have no hesitation in labelling it pro-German," he commented. "If there is one thing that will hurt Canada more than another just now, it is the placing of obstacles in the way of financing the country. We all know that we cannot get money from the other sources that were open before and during the war; and that we were dependent upon ourselves, and the person who tries to embarrass the raising of money for the carrying on of the business of the Dominion and the paying of soldiers' pensions and other mili-

tary liabilities, is doing Canada a distinct disservice.

"It would be interesting to know who is responsible for the rumor."

"How is the National Savings movement going in Alberta?" he was asked.

"Excellent. Every day adds to the list of the places that are taking up this good work, and before the year is out it is expected that every population centre in the Province will be a live factor in the campaign."

### The Housing Problem of Today

While the war was on building operations were held up to a large extent, and now that we are getting back to a normal state, it has become apparent to many householders that housing conditions are very acute, not only in the cities but the smaller towns as well. Just now the effect is being keenly felt in our own town to such a degree that a great deal of inconvenience and expense has been experienced by tenants being compelled to buy or move out into a less desirable house. In some cases the tenant has been forced to buy in order to get suitable surroundings for his family. This is a condition that should not be allowed to exist if at all preventive and we want to outgrow our present town area; neither is it good from a business standpoint, for it will have a tendency for householders to seek places where this drawback does not exist. In order to overcome this very difficulty the Dominion Government has provided a large sum for better housing conditions, and surely when such an opportunity is offered it should be taken up at once and so relieve the present stringency of houses here. It is the duty of the local authorities to see, so far as possible, that householders are not compelled to live under conditions that are objectionable and nauseating. Surely there is sufficient idle money in Didsbury to relieve the situation and at the same time prove a good investment, provided neat and attractive home are erected of the bungalow type, with sufficient room for a good lawn, flower or vegetable garden. These would rent or sell at a good price when finished and would be an incentive to make every home still more attractive and beautiful.

The chief trouble with the present state of affairs is that so-called houses are erected that do not meet the requirements of present-day householders. Proper plans are not drawn up and in a great many cases the layout of the interior is left to the carpenter or contractor. The result is in many cases discouraging to the occupants and consequently soon lapse into dirty and unsightly buildings and unfit for human habitation, especially if neglected by the landlord. Furthermore, such a class of houses do not add to the good name of any town, and will only hinder its growth and remind us of city slums.

On the other hand, where neat and attractive homes, with well cultivated lawns and flower gardens exist, such real homes become a great asset to the community. But this state of order and progress cannot be obtained by crude and unsightly buildings devoid of architecture.

We are now on the eve of a great work of reconstruction, and the question arises will we develop along advanced and progressive lines or forever remain in a rut?

The Albert Gazette contains notice of application for the change of name of Emanuel Rauschenberger, of the city of Medicine Hat, clerk, to that of Emanuel Ensley, and also that of his wife, Lena; his children, Annie and Mabel Lillian. It is safe to predict that Mr. Ensley and his family will all be good Canadians and obey its laws. He recognizes the advantages of living in a free and enlightened country and willing to assume all the responsibility of citizenship and to forget the laws and customs of his antecedents.

## A tractor that will fit your farm—the Fordson

YOU can make your farm produce more—at less cost—and with less effort on your part—by using the Fordson tractor. Not only will it help you prepare your land and cultivate the crops, but it furnishes power for many other farm jobs.

The Fordson tractor is the result of long study of farming conditions and it has proved a success. Burns kerosene—easy to operate and care for—practically trouble-proof.

### There's an Oliver No. 7 Plow for your Fordson

Just as the Fordson tractor gives ideal power, the Oliver plow means ideal plowing. It is scientifically designed for tractor service—and is backed by a half century of experience in making plows. It buries all trash and weeds at the bottom of the furrow—maintains an even depth of furrow—and is controlled from the tractor seat.

## A Good Motto to Remember

(Farmers cut this out)

Careful Straining and proper Cooling of Milk in water at this time of year is very essential to guard against loss. Both Dairymen and Manufacturers take big chances of loss if the Milk is not cooled just as carefully during winter months as in the summer. Do not trust to weather conditions. The Milk will not cool in the centre of the can fast enough to prevent high acidity unless proper stirring is applied.

## Sold Flags to Belgians

Hun Did Surreptitious Business With Public of Zeebrugge Before Leaving

When the Germans withdrew hastily from the north seashore of Belgium they left behind a series of fortifications all the way from Zeebrugge to Nieuport.

The entire shore is one continuous line of redoubts, reinforced concrete dugouts, trenches and barbed wire entanglements, with gun pits about every 50 yards. The Germans carried off most of the guns, but they retired so hastily they had to leave a large number behind. An old woman resident of the town told the correspondent, who wondered at the profusion of Belgian flags, that a German trader had visited Ostend some days before the evacuation and surreptitiously sold thousands of Belgian flags. "Is this not truly German?" she asked.

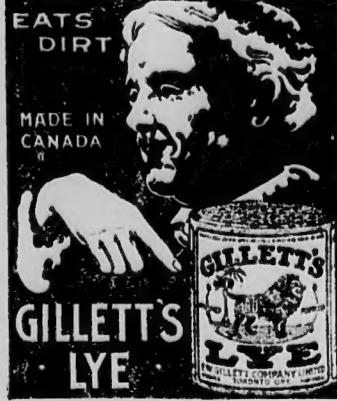

Many other residents had hidden their Belgian flags from the invaders.

## CHILDHOOD AILMENTS

The ailments of childhood—constipation, indigestion, colic, colds, etc.—can be quickly banished through the use of Baby's Own Tablets. They are a mild but thorough laxative which instantly regulate the bowels and sweeten the stomach. They are guaranteed to contain no harmful drugs and can be given to the youngest baby with perfect safety. Concerning them Mrs. Alcide Lepage, Ste. Beatrix, Que., writes:—"Baby's Own Tablets were of great help to my baby. They regulated her bowels and stomach and made her plump and well." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## When Alberta Was a Ranch

Interspersed With Beautiful Mountain Streams and Lakes

Alberta in 1882 was, says Mr. A. S. Carlos, writing in the Edmonton Bulletin, one immense range, interspersed with beautiful clear mountain streams, lakes and springs. Fort Macleod, Calgary and Edmonton were the only places of any importance—three genuine western towns.

In 1882 and 1884 many large ranches were established in the Macleod country. At Pincher Creek, 30 miles southwest, there were many small ranches which carried from three hundred head, besides the large concerns, such as the Cochrane, the Waldron and Winder in the Porcupine Hills north of Pincher Creek. Thirty miles north of Macleod was Leavings, headquarters for the Winder ranch on Willow Creek. The Cochrane ranch people, besides having a ranch southwest of Macleod, had a lease of all the country from Shaginapi Point, three miles west of the present C.P.R. station, to Morleyville.

## Show True Spirit Of Co-Operation

Farmers Turn in and Harvest Crop of Neighbor Who Meets With Accident

Co-operation of the altruistic kind was recently exemplified amongst the Grain Growers of the Blaine Lake district, according to a communication received at the central office, Regina, says the Leader.

During harvest operations Roy Miner, a charter member of the Speers Grain Growers' association, had the misfortune to lose his left hand. His fellow members rallied to his assistance with a will and by the aid of ten or twelve binders cut the remainder of his crop. Others turned out with mowers and rakes and gathered together enough hay to see him through one year. Not content with this the executive of the Grain Growers' association decided to hire a man and pay his wages for a month.

D. Jupp, secretary of the Speers G. G. local, in forwarding this information, winds up his letter with the remark: "I believe a spirit like the above permeates the entire personnel of our associations in Saskatchewan."

**On Sale Everywhere.**—There may be country merchants who do not keep Dr. Thomas' Eclectic Oil, though they are few and far between, and these may suggest that some other oil is just as good. ## Concrete Ship Ends Long Trip

The concrete ship Faith, first of its type built for ocean cargo carrying, and hailing from San Francisco, has arrived safely at a Gulf port, according to word received by agents of her owners. The vessel, after carrying 2,000,000 feet of lumber from California to Chile, took on a load of 4,000 tons of nitrate and came through the Panama Canal.

The Faith, which was "poured" rather than built, stood the sea experience without damage, her agents said, and is ready to sail for another port as soon as her unloading and reloading is finished.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. ## Strange Little Homes in the West

Bivouacking supersedes the usual system of permanent billets during the summer months in France. Given a little ingenuity it is wonderful how comfortable a home can be constructed by the aid of a few strips of timber and a piece or so of corrugated iron. The interior is lined with ground sheets, an upturned empty ration box serves as a table, a shell case does duty as a vase for a nosegay of poppies and cornflowers. To be complete, bivouac must be named. In a certain vale in Picardy may be found, "Cafe Praps Knot," "Rhododendron Rendezvous," "McKonicky Lodge," "Liar's Lair," and the "Wire-wasters' Institute"—the latter being reputed by linemen of the signal service.

Corns cause much suffering, but Holloway's Corn Cure offers a speedy, sure, and satisfactory relief.

## The Food Value of Cheese

Cheese is the only real substitute for meat. Bread and cheese is, indeed, a most perfect diet. Men have habitually done many hours' hard manual work with bread and cheese as their chief food. Margarine is a fairly satisfactory alternative for butter. There is no substitute for cheese. The two principal dairying provinces of Canada are Quebec and Ontario, the former leading in the production of creamery butter and the latter in the production of factory cheese. Out of a total of 3,446 creameries and cheese factories in Canada, 1,984 are in Quebec. The total number of patrons or dairy farmers, supplying milk and cream is 221,192 of whom 79,145 are in Quebec.

## Painting Salmon Red

Very Successful Until Health Authorities Interfered

Red is the preferred color for salmon flesh. It is the "dog" salmon's misfortune to have meat of a dirty grayish hue, so that it is almost unmarketable.

Recently, however, a fish dealer in Boston made a delightful discovery. It was that some salmon-colored paint (which he happened to be using for painting a truck) would transform a dog salmon offhand into a fish of the most expensive variety.

The way it worked was really remarkable. It appears that the stuff was a coal tar product, and when freely applied with a brush so saturated the meat with dye as to give it a fine salmon-red tint clear through.

Unfortunately, the local health authorities, lacking appreciation of the fine arts, seized the fish and the paint, and shut up the studio.

## "Whatever is the Matter, Jack, You Don't Look Well!"

"Oh, I'm all right."  
"But you're not. You look so worried and tired."

"Well, I haven't been sleeping very well lately."

"No, and you don't seem to have any appetite. I think you ought to take something to tone up your system."

"Oh, no, I don't need any medicine. I guess I will soon be all right."

"But you should not neglect yourself, for that is just the way I was before I had nervous prostration, and you know what a long time I was laid up."

"Well, I haven't any time to be laid up, that's a sure thing."

"I know what I am going to do. I am going to buy half a dozen boxes of Dr. Chase's Nerve Food and see that you take it regularly."

"You know, Jack, that nothing seemed to help me like Dr. Chase's Nerve Food, and I am sure it will be just as good for you."

"You will take it, won't you?"

"I'll do most anything to get feeling better, for I know I have been losing my grip on business lately."

"I get up feeling tired in the mornings, and have to drive myself to do the work that used to be a pleasure for me. I have got in the way of putting off matters that need attention, and hate to meet people when I know that some energy will be required to discuss business deals with them."

"You'll take the Nerve Food, won't you?"

"Oh, I'll let you be the doctor, and if the Nerve Food builds me up like it did you I'll soon get back my old-time vigor and be able to make things hum. I have been rather discouraged lately, but I can see now that the trouble is in the condition of my nervous system. So you get the Nerve Food and we'll see what it will do."

## The Whitewashing of Boudreau Is Final

The Boudreau "whitewashing" episode in the Legislature produced a strong debate in denunciation of the matter. Perhaps no question has come up in Alberta that has created such widespread indignation. The facts are pretty well understood by the public, and it is surprising that a majority vote was put through exonerating Boudreau, in the face of the evidence of reliable witnesses. The matter was brought up in the House on Tuesday evening of last week and continued next day. The feature of the evening was the firm stand taken by W. M. Davidson, Government member from North Calgary.

In attacking Boudreau, Mr. Davidson employed the most unqualified language, citing from a statement of former License Inspector Fred G. Forster that Boudreau was responsible for "slipping" through the Legislature last session the "joker" in the Liquor Act whereby druggists, as incorporated companies, are permitted to obtain unlimited supplies of liquor from government vendors.

Boudreau had previously made a rambling statement in defence of himself, which, however, consisted largely of an effort to denote the whole affair as a political attack on himself by the opposition.

Mr. Davidson later called the attention of the House to the fact that Mr. Boudreau had not seen fit to deny Mr. Downey's testimony, that on November 8 last, Boudreau had asked Downey to sell him liquor and send the cheque to him the following day, the point around which the investigation revolves.

The debate was opened at the afternoon session by A. F. Ewing, West Edmonton, who offered a substitute resolution for the majority report of the committee clearing Boudreau, and which practically embodied the language of the minority of the committee which had been ruled off the floor of the House.

Mr. Ewing declared that the majority report of the public accounts committee clearing Boudreau of the accusation that he had purchased liquor on one occasion in the vendor's store on credit, was again all the evidence that had been produced before that committee. In regard to statements that he had made that the affair was of no importance, all he would say that the member from St. Albert thought it was of sufficient importance to appoint a committee for that purpose.

He then proceeded to give a brief review of the case, beginning at the point when Mr. Downey had stated before the committee that Boudreau, on November 8 last, had come into the Edmonton vendor's office where Downey was working temporarily at the time, and asked for credit. There was no dispute about this, said Mr. Ewing.

The Hon. member from St. Albert although he thought the accusation in Mr. Forster's letter were untrue, during the whole time of the committee hearing, he did not see fit at any time to go into the box and deny any of the statements under oath.

Mr. Ewing referred to several witnesses who gave testimony in regard to the manner of payment of the liquor that came into the possession of Boudreau, all of which cast a shadow of doubt regarding the transactions.

On this point he said: "Important as the facts may be, they pale into insignificance beside some of the other things that happened in connection

in connection with the case. When evidence was taken a sub-committee was appointed, including the Minister of Municipalities, Mr. Ramsey, Mr. Ebberts and myself, to draw up a report and present to the committee. We came to an unanimous conclusion to present the evidence as it has been produced here. When we presented that report to the committee the member from St. Albert protested, and after hearing his protest the public accounts committee decided in favor of our motion unanimously."

Mrs. McKinney (Non Partizan) of Claresholm took part in the debate and told of her visit to the vendor's shop in company with Major Lowery before any person could possibly know what they intended to look for, that they did find eventually what came out in committee. They found pinned to a certain slip, not of the date of the investigation either, an account of 11 quor on which was pencilled on the margin: "Cheque and blank to-morrow."

Mrs. McKinney was followed by

Dr. D. G. Stanley of High River, who claimed the government department which had control of the sales to the drug store was to blame. The minister, he said, could have restricted those sales, and all the mixup and discredit must be placed at the door of the Attorney-General for failure to restrict the sales, which was within his power.

Russia's woes under Bolshevism are increasing daily. The advanced theorists are having their ideas put into execution, to the general mis-

fortune. Customs and manners, the result of ages of experience, are being discarded and in their stead the wildest practices are being enforced. Domestic life is violently altered, girls and women being disposed of like so many head of live stock. Crime and disease flourish, yet the visionaries are convinced that they are laying the foundation for a race of supermen.

# Help the Y.M.C.A. Finish its Work For Soldiers

*Help the "Y" Construct the Manhood that will Re-construct Canada*

ALL the world now knows that the Red Triangle of the Y.M.C.A. was the "Sign of Friendship" to thousands of your brothers, sons, nephews, cousins and neighbours' boys in the last four and a half years. Wherever the Canadian Soldiers went, the "Good old 'Y'" went too. And now it is coming back home with them!

For the support which has made possible the war work of the Y.M.C.A. we thank you. Your money has been well expended. We have rendered full account.

We ask now your continued sympathy and support for Red Triangle Service for our Soldiers during demobilization, and for Y.M.C.A. work for Canada generally during the Reconstruction period. The Annual Red Triangle campaign will be held throughout Canada May 5th to 9th, 1919. The objective is \$1,100,000.

The Y.M.C.A. will keep its chain of Service unbroken till the end.

## For Our Men Returning

For the soldiers and their dependents, returning from Overseas, we have provided as follows:—

1. A Red Triangle man on board every ship when it leaves Great Britain, with a full equipment of games, gramophones and records, magic lantern, literature and writing materials. Where possible, also a piano or an organ. Lectures, concerts, sing songs, instruction re Government repatriation plans, and Sunday Services.
2. Red Triangle comforts and facilities for the men on arrival at Halifax, St. John, Quebec and Montreal, including coffee stalls, with free drinks, free eatables, cigarettes, candies, etc.
3. Red Triangle men on every troop train to provide regularly free drinks, eatables and cigarettes, organize games and sing songs, and furnish information.
4. Red Triangle free canteen service, information bureau, etc., at each of the 22 Dispersal centres in Canada.
5. Red Triangle Clubs in the principal cities of Canada in the shape of large Y.M.C.A. hostels to furnish bed and board at low rates and to be a rendezvous for soldiers.
6. Seventy-five Secretaries to superintend Red Triangle service in Military Hospitals, Camps and Barracks throughout Canada.
7. Tickets entitling soldiers to full Y.M.C.A. privileges for six months at any local Y.M.C.A. furnished.

In addition to our work for the returning soldiers, we have to maintain the Red Triangle service to the full for the soldiers in Siberia, as well as the work of special secretaries in Northern Russia, Palestine and Poland.

## For Canada's Manhood

The Reconstruction program of the Y. M. C. A. includes the following vitally important developments:—

1. An increased service to 300,000 teen-age boys in the Dominion—the development of Canadian Standard Efficiency training; Bible Study groups; summer camps; conferences; service for High School boys, for working boys, in the towns and cities; for boys on the farm and for boys everywhere, who have lacked opportunity for mental, moral, physical or social development.
2. Inauguration of Y.M.C.A. work in the country, and the smaller towns and villages lacking Association buildings and equipment, on a plan of county organizations. This will include the establishment of Red Triangle centres for social, recreational and educational work among boys and men, in co-operation with the churches.
3. The promotion of Y.M.C.A. work among Canada's army of workers in industrial plants, both in Y.M.C.A. buildings and in the factory buildings, organizing the social spirit among the industrial workers of our cities by meetings, entertainments, games and sports.
4. The establishment of the Red Triangle in isolated districts where lumbermen, miners and other workers hold the front trenches of industry.
5. Besides these main fields of increased activity for 1919, we have to provide for enlarged work among railway men, college students and for our campaign to encourage physical and sex education. Under all our work we place the fundamental foundation of manly Christianity.

## Y.W.C.A.

For the wives and children Overseas, dependent upon Canadian soldiers, and for Y.W.C.A. work in Canada generally, a sum of \$175,000 from the Red Triangle Fund will be set aside for the Dominion Council of the Y.W.C.A., which is caring for the soldiers' women folk, and their little ones on the long journey, from Liverpool to Canada, and is also extending its work for Canadian girls.

For their sake also be generous when you make your contribution.

FOR the sake of our victorious soldiers and their dependents, and the happiness of their home-coming; for the sake of our future citizens, our teen-age boys; for the sake of rural life in Canada; for the sake of the social betterment of the toilers in factory and workshop; for the sake of lonely men and boys in our mines and forests; for the sake of Christian Society and Canadian manhood—we appeal to you. Give us your contribution, little or big. Be as generous as you can.

Hand your contribution to the canvasser when he calls, or if you live where it is difficult for him to call, send it by check, money order or registered letter to the National Treasurer, Red Triangle Campaign, 120 Bay Street, Toronto.

## Please Note:

We are not asking for money to carry on our work Overseas, with the Army in Great Britain, France or Belgium. That work will continue at its maximum for some months, financially provided for by the liquidation of our assets Overseas, and will not terminate till the last man has sailed for home.

## SAT UP IN BED TO GET HER BREATH

Palpitation of the heart, shortness of breath, inability to lie on the left side, feelings as if smothering, oppressed feeling in the chest, dizzy and faint spells, tired, weak, worn out feeling, involuntary twitching of the muscles, sleeplessness, restlessness, etc., all point to the fact that either the heart or nerves, or both, are not what they should be. Any of these conditions should be remedied immediately so as to avoid a complete breakdown of the whole system.

Milburn's Heart and Nerve Pills will bring energy to the weakened constitution, strengthen and regulate the heart, and tone up the tired, overstrained nerves.

Mrs. William Steeves, Chemical Road, N.B., writes: "I have been a great sufferer from nerve troubles and palpitation of the heart, which was so bad I had to sit straight up in bed to get my breath. I could not lie on my left side at all. I tried doctor after doctor, also several different remedies, but got no help from them. My mother insisted on me trying Milburn's Heart and Nerve Pills. By the time I had used one box, I was feeling very much better. I took in all three boxes, and now I am in perfect health and can enjoy a good sound sleep, and can lie on my left side without any trouble."

Milburn's Heart and Nerve Pills are 50¢ a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I. — "I was all run down in health, was nervous, had headaches, my back ached all the time. I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."

— Mrs. ADELIN B. LYNCH, 100 Plain St., Providence, R. I. Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

Somebody says that it is a good thing people don't live their private lives in public.

It is a Liver Pill. — Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmelee's Vegetable Pills. Their operation though gentle is effective, and the most delicate can use them.

## With the Fingers! Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heeled shoe-wear is putting corns on practically every woman's feet.

Time works wonders. So would a man if he put in twenty-four hours a day, as time does.

## No Revolt in Serbia

London. — Serbian officials in London declared that there was no truth in the report that a revolution had broken out in Serbia. The latest official dispatches from Serbia report no unusual happenings there.

Wretched from Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

General Sir David Henderson, watched a young cadet aviator who showed signs of trepidation while preparing for his first flight. "Don't be nervous, man," said Sir David. "You'll come down again. There's no known instance of an airplane not alighting."

## May Use Warships

To Assist in Bringing Troops Back to Canada

London. — In the house of commons, Mr. Asquith asked:

"Will the secretary for war arrange that Canadian troops now awaiting repatriation be sent home on British warships, in view of the scarcity of merchantmen?"

Mr. Wilson replied that the admiralty had agreed to place a certain number of warships at the disposal of the authorities for the repatriation of troops. The difficult question of manning them was being discussed between the admiralty and the ministry of shipping. Anyhow no difficulty was now being experienced in providing sufficient tonnage for the repatriation of Canadians in accordance with the program of Canadian military authorities.

It is impossible to suppress the man who thinks he can tell a funny story.

## VALUE OF DECISION

On October 21st we received two inquiries from small towns in the middle west, regarding Davidson Gold Mines, Ltd. The inquiries, for obvious reasons, we shall call "A" and "B."

As is our custom, these inquiries were answered promptly with full details as to the latest developments on the property, etc., and a suggestion that a purchase at the price then prevailing (32¢) would be a wise move.

Five days had hardly elapsed when the mails brought a substantial order from "B" for this stock; whereas about a week later a second letter was received from "A" asking for further particulars. At every marked advance in the price of Davidson shares we were asked by enquirer "A" whether or not Davidson was still a "good buy."

Who is profiting by the appreciation in value of the Davidson stock? Who is benefiting by our suggestion?

When all particulars are in hand, it is time for decision. Further inquiry is useless and only decreases profits.

Davidson today, in view of recent developments, is as good a buy at 70¢ as it was months ago at 32¢.

Are you interested? If so, mail in this coupon for particulars, or mail your order for Davidson stock.

Profit by the experience of inquirer "A."

## A Strong Criticism of Premier Stewart

The present session of the Legislature of Alberta will go on record as fast losing the confidence of the electors, and it is not difficult to predict that after the next election the Premier and a few of his followers will probably be occupying the opposite side of the House. There is no doubt in the minds of all who desire to see honest administration at Edmonton that Premier Stewart himself is a strong partizan and too ready to condone political offences among his followers. Particularly has this been the case in the Boudreau "whitewashing," to which the Calgary Herald refers in a leading editorial:

"The attitude of W. M. Davidson, North Calgary member in the Legislature, in the Boudreau liquor investigation is worthy of all commendation. Mr. Davidson is a supporter of the Stewart Government, but in this affair he demonstrated that he was not a servile follower of the powers that be. The Government carried in the House its whitewashing resolution, but did so at the expense of its reputation. Premier Stewart has proven himself a weak leader and Mr. Davidson was fully justified in refusing to follow where his leader showed such lamentable weakness.

"In the recent liquor investigation before the public accounts committee, the people of Alberta were given an insight into the way in which things could happen in a government department where the department head was disposed to serve his party rather than play the game fairly and administer the law strictly and impartially. Affairs were so bad that an honest Government employee, finding that he could not secure the improvement necessary to justify him in retaining his position, preferred to quit the Government service. His resignation was accepted with alacrity by the department head.

"The sworn evidence of this ex-

employee, corroborated by another government official whose word is above reproach or suspicion, was before the public accounts committee. It was refuted only by the word of the man whose great laxity in the liquor vendor's office made investigation necessary. The Government prefers to take the word of the lax official in preference to that of the two against whom no evidence of wrongdoing has been suggested. And it had enough servile followers in the House to enable it to carry a whitewashing report.

"The exhibition of the Stewart Government in this matter is nauseating. It is bound to alienate the sympathy of every person in the Province who has respect for honest and fair dealing. Premier Stewart has shown himself to be a man not qualified for leadership, and The Herald does not believe the Premier endorses the whitewashing any more than does Mr. Davidson. The difference between the two men is that while the one permitted himself to be 'advised' by the practical politicians in his following, the other refused to obey the crack of the party whip and asserted his independence.

"Premier Stewart is not to be congratulated upon the quality of the men he has surrounded himself with. His tenure of office will not be lengthy at the rate he is going or, rather, being led. The real power in the Alberta Legislature today rests not with the Premier but with a group of scheming politicians who are serving party and self rather than the public interests. There can be but one finish to this state of affairs, and the sooner it arrives the better it will be for the Province and its future welfare."

## Notes from Overseas

The council of four of the Peace Conference has recommended that Heligoland shall be dismantled, and as far as possible destroyed as a naval base. This will put an end to the ex-Kaiser's great naval dream.

It is proposed that allied forces

should occupy parts of Germany for a period of fifteen years. And if the Huns fail to agree to the terms of the Peace Conference there is every prospect that the army of occupation will go much farther than the banks of the Rhine, where they are now encamped.

Germany intends to claim an indemnity from the Allies, according to the Frankfort Gazette. It says the German negotiators at Versailles will ask payment for damages sustained from aerial attacks, from the occupation of German territory by the Allied troops, and for the delay in concluding peace, causing a prolongation of the Bolshevik and Spartan troubles.

# Trial of Ex-Kaiser Not For Belgium

Paris. — The Belgian delegation at the peace conference informed the correspondent that Belgium had not been officially requested by the council of four to bring the former German emperor to trial, and that the Belgian government would feel obliged to decline to take the steps even if there were any request for such action.

The Belgian delegates hold that any action should be taken by a commission representing all the associated powers. The official Belgian view, it was said, is that the former emperor cannot be arraigned for declaring war or violating the neutrality of Belgium, or for any act preceding or coincident with the declaration of war.

After pointing out that there is no tribunal competent to hear such charges against the former emperor and no provision of international law covering such cases, the delegates said that Belgium expects that persons guilty of acts punishable under the criminal code of the belligerent powers should be placed on trial, as theft, murder and other crimes committed during the war does not relieve the criminals of responsibility.

"If the commission desires to arraign General Baron von Manteuffel for the sacking of Louvain, General von Schroeder, for the murder of Captain Fryatt and General von Sauerberg for the execution of Miss Edith Cavell, all the necessary documents will be forthcoming," said the general secretary of the delegation.

"But Belgium does not seek revenge. It wants only justice. It would be small satisfaction to lock the Kaiser up for a few months in the Saint Gille prison and those who have reported that such revenge has been offered Belgium as a solace for her wrongs, have sadly misunderstood the Belgian character, if they thought it would be acceptable.

"The only case in which the personal responsibility of the former emperor for a criminal action committed in Belgium could be established beyond doubt, is in the atrocities attending the deportations of civilians and compelling them to do forced labor in Germany. In this case, his responsibility is unquestioned."

## MAMMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at tongue! Move poisons from liver and bowels at once.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."

## Where They Belong

Over Two Hundred German Submarines at Bottom of Sea

New York. — Rear Admiral Sims, who commanded the United States fleet during its war time activities in European waters, said that he believed there were "205 German submarines at the bottom of the sea."

In a speech at the Bond Club, a Victory Loan organization, he said: "The fleet found many submarines stuck on the bottom with indications showing that many of the men caught inside either committed suicide or killed each other."

## NEGLECTED COLDS

### Lead to Consumption

Unless a complete cure is effected the inflammation passes rapidly to the throat bronchial tubes, and then to the lungs.

You can't make new lungs any more than you can make new fingers or a new nose—hence consumption is practically incurable.

But Catarrh can be cured, except in its final and always fatal stages.

## Catarrhzone

### Guaranteed to Cure

The purest balsams and the greatest antiseptics are sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance and cure comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhzone is breathed—sneezing and coughing cease at once, because irritation is removed.

Use Catarrhzone to prevent—use it to cure your winter ills—it's pleasant, safe and guaranteed in every case.

Two months' treatment, large size, guaranteed to cure, price \$4; small size, 50c; sample size, 25c; sold everywhere.

## Holland Fears Bolshevism

German Border Strengthened to Prevent Smuggling of Munitions

The Hague. — The frontier guard along the German border has again had to be strengthened because of the efforts made by Bolsheviks to smuggle arms and munitions to Holland. Ten Germans were arrested and twenty who were trying to come into the country were turned back. Every traveller who enters Holland is searched in Amsterdam. There is much interest in Amsterdam due to the demobilized soldiers, who, without a recognized leader come together daily and parade through the principal streets. While the police are engaged in trying to disband them other disorderly crowds raid shops elsewhere. Jewelry valued at hundreds of thousands of dollars have been looted. In almost every case the windows are first smashed and then when the storekeeper runs out to see what is happening he is caught and held by the mob while his shop is robbed. Others hastily put up their shutters when they see bands of men and boys approaching.

## Coming to Canada

Rumanian Ship Has Sailed Under Recent Trade Agreement

London. — Reuter's learns that a Rumanian steamship has left Liverpool for Montreal to load goods supplied by Canada to Rumania under the recently signed agreement.

Mr. Lloyd Harris, chairman of the Canadian trade mission, has left for Paris, where he intends to investigate Belgian requirements with a view to ascertaining what Canada would be able to supply and thus help in the work of restoration.

Canada will be represented at a large exhibition of British manufactures which is to be held at Athens this autumn.

### Flu Holds Up Shipping

Melbourne. — The commonwealth government has decided to prohibit the movement of all shipping from Australian ports in consequence of the severity of the influenza epidemic in Australia and New Zealand.

## Indian Authorities

### Restore Order

Cotton Markets in Bombay Have Been Re-opened

London. — Prompt measures taken by the Indian authorities to deal with the disturbances that occurred at Bombay, Ahmedabad and other points recently have resulted in the restoration of order everywhere, says a news despatch from Bombay.

The cotton and other markets in Bombay have been re-opened.

In the disorders at Ahmedabad, the government buildings were burned down and a train conveying troops from Bombay to restore order was derailed by removal of a rail. There were no casualties, but the railway and telegraph communications were interrupted.

Bombay. — Objectors to the Rowlatt act which prohibits the publication and distribution of seditious and disturbing literature, have started a campaign of passive resistance, beginning with resistance to the act respecting the press. The committee's statement says that for the time being the laws regarding prohibited literature and registration of newspapers may be disobeyed. The committee selected certain prescribed books and pamphlets, mostly written by Gandhi, which "do not directly approve or encourage violence." These may be publicly sold and distributed.

## Anarchy in Munich

Robbers are Looting Houses and Threatening Banks

London. — Complete anarchy reigns in Munich, according to a Copenhagen dispatch to the Exchange Telegraph. All work has ceased. Trains are not running, and robbers are looting houses and threatening the banks, the dispatch states. The first infantry regiment is said to have joined the Spartacists.

Copenhagen. — German government troops have occupied the entire town of Magdeburg, according to a Weimar dispatch to the Lokal Anzeiger of Berlin. It is reported there was hard fighting, with many casualties on both sides.

### Demobilization Stopped

London. — During question hour in the house of commons, Winston Spencer Churchill, minister of war, stated that he was informed there were only two British prisoners of war who were sick and could not be traced remaining in Germany. Mr. Churchill also stated that recent events had necessitated a temporary suspension of demobilization in both Egypt and India.

## When the Kidneys Went Wrong

The Back Ached Severely and There Was Trouble From Dizzy Spells—Had to Quit Work

Routhwaite, Man., April 22.—To be forewarned is to be forearmed. To know the symptoms of kidney derangements and the best method of treatment may enable you to avoid much suffering and to greatly prolong your life.

Mr. Stevenson found that backache became so bad that he could not turn in bed, and had to quit work entirely. Other symptoms were headache, dryness and harshness of the skin, painful and frequent urination, looseness and constipation of the bowels alternating, dropsical swelling of the limbs, feelings of fatigue, and pains and aches through the body and limbs.

It is now generally conceded that Dr. Chase's Kidney-Liver Pills are the most satisfactory treatment obtainable. You will find plenty of proof in the letters appearing from time to time in this paper.

Mr. George Stevenson, Routhwaite, Man., writes: "For seven months I suffered from kidney trouble, backache and dizzy turns, and could get no relief. My back ached so severely that I could not turn in bed, and finally I had to quit work. One day I received a copy of Dr. Chase's Almanac through the mail, and after reading how highly Dr. Chase's Kidney-Liver Pills were recommended I gave them a trial. I had tried various other pills and remedies with no effect whatever, but immediately I started using Dr. Chase's Kidney-Liver Pills I got relief, and two boxes completely cured me."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. There are imitations, but the portrait and signature of A. W. Chase, M.D., are on every box of the genuine.

### Smaller Acreage for Manitoba

Winnipeg. — Seeding operations have begun in Manitoba. The department of agriculture received word from Clearwater, Man., that farmers are now busy on the land and seeding wheat.

The acreage will be considerably smaller than in 1918. The reason for this is farmers during the war taxed their land to its capacity in growing crops in order to supply the demand of the allies for food.

## Children Love

### Cascarets---10c

Candy cathartic is harmless to tender stomach, liver and bowels

Your child is bilious, constipated and sick. Its little tongue is coated, breath is bad and stomach sour. Get a 10-cent box of Cascarets and straighten the youngster right up. Children love this harmless candy cathartic and it cleanses the little liver and thirty feet of bowels without griping. Cascarets contain no calomel and can be depended upon to move the sour bile and poison right out of the bowels. Best family cathartic because it never cramps or sickens like other things.

## Fearful of Unjust Peace

German Press Denounces Conditions of Treaty

Berlin. — Semi-official French announcement of the conditions to be laid down in the treaty of peace are denounced by the German press. Prince Lichnowsky, in an article in the Tageblatt, declares France "forgets that instead of leading to disarmament, an unjustly extorted peace will bring forth only fresh armaments throwing into the shade all former armaments, because the mailed fist peace can be maintained only by the mailed fist."

Declaring that a peace of violence must be absolutely rejected, he concludes:

"Nobody can re-commence the war against us. Neither can we be starved out without the common enemy, communism and terrorism, throwing all mankind back into its primitive state."

"No German government can sign such terms," the Vorwaerts declares.

"The entente statesmen must themselves settle with the inhabitants of the Saar valley who are thoroughly German, and they may find that the sums proposed as indemnities cannot be extracted, even if the last sheet is taken from our beds."

Some men are so self-confident that they are unable to distinguish between a cheer and a jeer.

## Say Huns Must Be Punished

Resolution Signed by 5,000,000 United States Women

Paris. — Premier Clemenceau received from Mrs. Charles H. Farnham, of New York, the representative of the committee for the protection of women under international law, a resolution signed by 5,000,000 United States women relating to crimes against women committed by the Germans and their allies during war. The resolution denounces the German attack on humanity through womenkind as "infamous and sinister."

Super-abundant proof exists, the resolution says, of the crimes which the armies of the central powers perpetrated against women in all the countries they invaded.

Demand is made that all officers, soldiers, and civilians belonging to the armies of the central powers who perpetrated any crime against women or girls in any allied country, should be punished if possible. And that steps should be taken to prevent such outrages in the future.

### Another German Strike

Bremen. — A general strike has been proclaimed here. It is effective in most of the large works and on the tramways. The gas and electric lighting systems, however, are operating.

## Nova Scotia Man

### Is Enthusiastic

For Dodd's Kidney Pills Have Made Him Well

A Year of Growing Kidney Trouble Brought Bright's Disease but He Found a Help in Dodd's Kidney Pills.

Belleville, Yarmouth Co., N. S. April 21st. (Special). — "You can tell everyone that it was Dodd's Kidney Pills that made me well." This is the joyful remark of Mr. Alcide Meuse, a well-known and highly-respected resident of this place. Mr. Meuse, who suffered for a year from kidney trouble, is enthusiastic in his praises of Dodd's Kidney Pills. "I think everybody ought to use them all the time," he says. "Then he gives the reasons for his enthusiasm:

"I first caught a cold," Mr. Meuse states, "and kidney trouble followed. My sleep was broken, my eyes were puffed and swollen and I had dark circles around them. I was often dizzy and always thirsty. My skin itched and burned at night. I was troubled with nervousness and my limbs were swollen."

"I had cramps in my muscles, backache and headache. Then Bright's Disease developed. A doctor attended me but the first real relief I got was from Dodd's Kidney Pills. I took eight boxes of them and they cured me."

All of Mr. Meuse's troubles came from sick kidneys. Dodd's Kidney Pills cured his kidneys and he felt well all over. That's why he's enthusiastic. For sound kidneys make pure blood and pure blood is the foundation of health.

J. W. Phillipson, one of Didsbury's famous auctioneers, and who is noted for his Irish wit, has requested us to publish the following gem: "Norah and Pat were reading an article on the law of compensation. 'Just fancy,' said Norah, 'according to this, Pat, when a man loses one of his senses another gets stronger. A blind man gets more sense of hearing and touch—' 'Shure, and that's thrue,' interrupted Pat. 'O! I've noticed it meself. Now, Mick Sullivan has one leg shorter than the other, but shure the other's longer.'"
